To all Life Scouts/parents of Life Scouts:

There are a couple of potential Eagle Projects that could be done at Wesley Community Services. Jayne Haverkos (long-time friend of the Troop) works there, and made me aware of these. Anyone who is Life right now, and would like to get a project complete before the fall, should work on the first one. This would be pretty close to what Philip Teufel did for Our Lady of the Woods, and could be done as long as the project got written up soon and passed through.

The second one would need to have 'more meat' on it in order to qualify, but I am sure that, during the planning phase, other items could be thought of and added to it.

Come back to Wesley, contact listed below, with questions.

Gerry

Wesley Community Services:

Wesley is a non-profit organization and provides Meals-On-Wheels, medical transportation, and home making services to seniors in Hamilton and Butler Counties. Wesley moved to a new facility the end of last year and has a couple of projects that might make good Eagle Projects.

(1) We need a wood shed for storage. We would like a 8x10 wood shed that will be placed on a pre-existing concrete slab.

(2) We would like a wooden picnic table to be utilized by the employees. This could be combined with some landscaping. We have shrubbery that needs to be replaced.

Location:

2091 Radcliff Dr.  
Cincinnati, Ohio 45204
